Fax	+81-3-3753-1079

With a one-stop integrated process from design through processing to delivery, we can meet shorter lead times at lower cost.

Specialized Products, Technologies and Services

One-stop integrated processing services

One of our areas of expertise is processing thin sheet materials and special materials, such as films using precision high-speed press machines.

Micro-perforation services and products

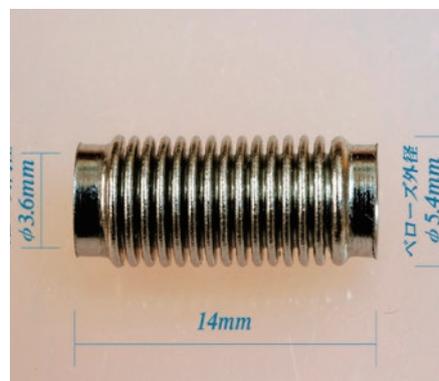

We provide high-precision micro-perforation services unavailable anywhere else. Hole sizes down to $\phi 0.02$ mm are available.

High-precision processing

Our high-precision pressing capabilities allow us to manufacture and process precision parts. Aperture blades and shutter blades (diaphragm blades) for use in cameras, in particular, have been in our lineup since the beginning and have been supplied to many camera manufacturers.

Micro-perforation ($\phi 0.02$ -mm holes \times 4,000)

Press-formed small-diameter metal bellows

Precision-pressed optical parts

Current Status of Overseas Business

On-site production	
Sales bases (incl. dealerships)	
Export	South Korea, China, Hong Kong, and the United States
Import	South Korea and China
Outsourcing production/processing	South Korea
Technology partnerships	South Korea
R&D bases	
Other	

Key Business Partners

- Tamron Co., Ltd.
- Samyang Optics Co., Ltd.
- CBC Co., Ltd.
- Ricoh Industrial Solutions Inc.
- Fujifilm Corporation
- Stanley Electric Co., Ltd.

Future Target Countries and Regions

Overseas Business Prospects

- Establishment of overseas production bases
- Establishment of sales bases (incl. dealerships)
- Exporting from Japan
- Importing (procurement) to Japan
- Outsourcing production/processing to overseas
- Production/processing commissioned from overseas customers
- Technology and licensing partnership
- Establishment of R&D bases
- Other
